COMING IN NOVEMBER!

We are happy to announce that we are opening a Catechesis of the Good shepherd Atrium for 3-4 year olds! CGS is an approach to the religious formation of children which follows Maria Montessori's principles of child development and implements a hands on approach to fostering quiet contemplation rooted deeply in Scripture and the liturgy.

Children gather in a room (th Atrium specially prepared for them which contains simple yet beautiful materials that they use to draw near to God.

During the catechesis, the child can ponder a biblical prayer passage by taking the materials associated with the text and working with it—placing wood figures of sheep in the sheepfold of the Good sheperd or setting sculped apostles around the last supper table.

Catechesis will take place weekly on Saturdays from 10 am-12 noon at the MTMC beginning November 9th. If you are interested in registering or would like more information, please contact Jennifer Altier at 381-3873.

**SPIRITUAL ADOPTION OF AN UNBORN BABY
 Development at 36 Weeks**

Babies differ in size, depending on many factors, such as gender, the number of babies being carried, and size of the parents. So your baby's overall rate of growth is as important as the actual size. On average, a baby at this stage is about 18.5 inches and weighs close to 6 pounds. The brain has been developing rapidly. Lungs are nearly fully developed. The head is usually positioned down into the pelvis by now. Your baby is considered at 'term' when he is 37 weeks. He is an early term baby if born between 37-39 weeks, at term, if he's 39-40 weeks and late term if he's 41-42 weeks.

TODAY! BABY SHOWER!
